**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

#### Product By Process Claims

2. Claims 1 and 11 are product by process claims. Namely, they indicate that the seat rails are “cast”. Product-by Process claims are not limited to the manipulations of the recited steps, only the structure implied. See MPEP 2113. “[E]ven though product-by process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process.” In re Thorpe, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

3. Claims 1-4, and 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Fujii et al.

Fujii et al. discloses a seat rail for supporting a seat, the seat rail having front portions thereof overlapping a fuel tank 112 and being attached to vehicle main pipes 3 and extending rearwardly, the seat rail being formed of a left-and-right split products 6 having a substantially flat upper surface, wherein the seat rail includes at least one cross member, the cross member being mountable using fastening members, the seat 117 being arranged above the seat rail and

the cross member, and a seat engaging member for engaging the seat being formed on the cross member, wherein the at least one cross member includes a front upper cross member 8, a lower front cross member, and a rear cross member.

***Allowable Subject Matter***

4. Claims 5-10 and 15-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

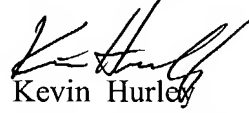

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose motorcycle seat rail assemblies.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Hurley whose telephone number is 703-308-0233. The examiner can normally be reached on Monday-Friday 9:30-5:00.
